BUILT FOR PLACES WHERE FAILURE IS NOT AN OPTION

Ship fast. Pass the audit. Keep your data home.

Fremen Labs builds focused, **self-hosted products** for teams in defense, finance, healthcare and government, where compliance is non-negotiable and speed still matters.

WHAT YOU GET

- **Audit-ready by default**
  Evidence produced as work happens
- **Leaders see reality**
  Live architecture, risk and capacity
- **Your data stays yours**
  Self-hosted, local-first, air-gap friendly
- **Pricing that scales**
  Unlimited-use and unlimited-viewer plans

THE PROBLEM

Regulated teams are told to choose: move fast, or stay compliant.

- Supply-chain rules now demand proof of what is in every release.
- Architecture and delivery status live in stale slides and spreadsheets.
- Big platforms are priced per seat, need a platform team and want your data in their cloud.

WHAT WE DO

Sharp, single-purpose tools that run where your data lives.

Each product does one hard job very well, plugs into the tools you already use (Azure DevOps, GitHub, GitLab, Jira) and runs on your own infrastructure, including private and air-gapped networks. Together they cover the four hardest problems in regulated delivery: supply-chain security, compliant DevOps, scaled agile and governance-ready AI.

THE PRODUCT LINE

ReleaseFlow

RELEASE EVIDENCE

Every release becomes a signed, auditable record: SBOM, scans, approvals.

releaseflow.fremenlabs.com

Navo

LIVING ARCHITECTURE

A live, browsable map and wiki of your systems, kept in Git.

navo.fremenlabs.com

Vorsam

DELIVERY PORTFOLIO

One live view of work, capacity and risk across every team, with secured AI.

WHY US

- **Built for the hardest environments**: defense, finance and healthcare, where failure has consequences.
- **Works with your stack.** No rip-and-replace, no new platform team.
- **Air-gap and private-network friendly** from the start.

WHO IT'S FOR

- Defense & government
- Financial services
- Healthcare
- Platform & DevOps leaders
- PMOs & portfolio leads
- Software vendors selling to government

Where do speed and compliance collide for you?

We'll show you the product that fixes it, running on your terms.
